Results-driven SAP BODS Developer with 2 years of experience in ETL processes, data migration, and performance optimization. Skilled in SAP BODS, SQL, S/4 HANA, LTMC, LSMW and LTMOM with a proven track record of migrating large-scale datasets from legacy system to S/4HANA while ensuring data integrity and minimal downtime.

WORK EXPERIENCE

CAPGEMINI TECHNOLOGY SERVICES | Software Engineer

Bengaluru, Karnataka | May 2023 – Present

- Developed and optimized ETL pipelines using SAP BODS for data migration from SAP ECC to SAP S/4HANA.
- Created and maintained data mapping documents between legacy (ECC) and target (S/4HANA) systems
- Implemented BODS transformations, SQL queries, and data cleansing processes to improve data accuracy.
- Automated error handling and logging, reducing manual troubleshooting time by 40%.
- Collaborated with functional and QA teams to validate data integrity and compliance with business rules.
- Conducted post-migration reconciliation and testing to verify data integrity and system functionality.
- Diagnosed and resolved data migration challenges, ensuring data integrity and on-time project delivery.

PROJECT EXPERIENCE

MIGRATE DATA FROM LEGACY SYSEM TO SAP S/4 HANA | Westlake

- Contributed to the greenfield implementation of SAP S/4HANA for Westlake Corporation, integrating data from two legacy systems –JDE (JD Edwards) and AX (Microsoft Dynamics AX).
- Led end-to-end data migration activities, ensuring accurate and timely transfer of large-scale datasets across multiple business units.
- Utilized SAP BODS to design and optimize ETL workflows, improving data migration efficiency and reducing manual activities.
- Managed data migration for MTS objects including Work Center, Functional Location, Equipment, Revision Code ensuring precise mapping and reconciliation.
- Contributed to the migration of OTC and FTM modules, ensuring accurate transfer of Pricing Conditions and Accounts Receivable (AR) data to streamline sales and financial operations.
- Collaborated closely with the client's functional and technical stakeholders to define migration requirements and align deliverables with business objectives.
- Performed comprehensive data quality checks, validation, and post-migration audits to ensure accuracy, completeness, and system readiness.
- Contributed to the overall data governance and documentation process by creating templates, mapping sheets, and issue logs for continuous improvement.

SKILLS

- SAP Tools: BODS, SAP S/4HANA, LSMW, LTMC
- Languages: SQL, C, Python(Basic)
- Databases: SQL Server, Microsoft (MS) Access
- Software: SQL, MS Excel, MS Power Point, MS Word, Power BI

ACHIEVEMENTS

- **SHINNING STAR AWARD:** Received performance award for delivering impactful results and exceeding expectations beyond role experience level. (Dec 2024, June 2025) [Link](#)
- **Client Appreciation Award** – Honoured for exceptional client support and delivering high-quality project outcomes ahead of expectations. (Feb 2025)
